Bentleigh Railway Station

Westconnex M4 widening project

Bentleigh Railway Station

AND THE BEAT ROLLS ON...

Welcome to our September 2016 newsletter. Since June, Macfab has been very busy with lots of fabrication projects and a big install in Melbourne at the Bentleigh Railway Station which went smoothly and headed by Mud on site at Bentleigh. We have put on some new employees in trying to keep up with the workload ahead of us.

Current and ongoing projects:

- ✓ Bentleigh Railway Station
- ✓ Nambucca-Urunga highway upgrade
- ✓ Oxley-Kundabung upgrade
- ✓ Kempsey-Kundabung upgrade
- ✓ Barrier rails – Tuggerah upgrade
- ✓ Barham bridge steelwork
- ✓ Overhead structures at Melbourne stations
- ✓ Westconnex M4 widening project
- ✓ Berry Bypass project
- ✓ Citylink Tulla Widening project

Industry Recognition:

BUSINESS AWARDS
2016 REGIONAL FINALIST

We recently nominated Macfab Engineering in the NSW Business Chamber Murray Region Awards where we were finalists in the Business Leader and Excellence in Business categories.

The dinner was held in Wagga on Friday, September 16 and unfortunately we didn't win either category but it was an honour to make the Finalist section. We will be back next year!

On September 1st Michelle & Mud took out the office staff for dinner to the Wine Room where we had a lovely meal and drinks to thank theM for their contribution to Macfab. A great night was had by all!

Andrew Dean (Macfab Leading Hand) was nominated for the Wilson Award for the Oxley Highway-Kundabung project for "his great co-ordination with adjacent work areas, quality JHA's and his excellent understanding of the need for exclusion zones". Well done Andrew!

**Be safe and cheers until December,
Michelle, Mud & the Macfab team**

Food for Thought....

"When obstacles arise, you change your direction to reach your goal, you do not change your decision to get there".
