

MACFAB Engineering Showcase

JUNE 2018 Issue 38

4 employees clocked up 5 years of service last year

Monthly apprentice group training conducted by QSE/Safety manager

Pushpinder and Aaron on completing Peddinghaus plasma training

END OF FINANCIAL YEAR 2018

JULY AROUND THE CORNER!

Welcome to our end of financial year newsletter for 2018! We really don't know where the first six months of the year have gone but here are halfway through the year!

Macfab Engineering continues to dominate the industry with works continuing month after month, and it looks like no end in sight for slowing down which is good for all of us. Of course, we thank our amazing Clients and our awesome employees who keep the cogs turning for us all to continue doing what we love – fabricating steel.

We welcome Premkumar (Prem) to the Macfab team as our QSE Manager, who replaces Ashish Swarup after 5 years in the role. Prem brings a Bachelor Sc. Engineering with Honours and has previous experience working on diverse projects in Singapore. Welcome Prem to our team.

CURRENT & ONGOING PROJECTS

- Monash Freeway upgrade – supply and fabricate of structural steel
- Supply and install traffic barrier railings – Pacific Highway upgrade
- Northconnex M2 cycle way steel

Westconnex staircase installation

- Supply of outriggers and permanent walkway steelwork
- Supply of gantry, steel and walkway on Parramatta Rd
- Supply of Glen Waverley auxiliary feeders
- Caulfield-Dandenong – level crossing removal project
- Mernda Railway Station – coreten plates
- Supply of OHLE structures – Grange Bypass
- Supply of retaining wall posts for Northern Rd Stage 3 North

ACHIEVEMENTS & TRAINING

Formal training was given to Jonathan Sumner on 'Work Safely at heights' (RIIWH204D). Monthly internal training was conducted by the QSE Manager for the apprentices in April 2018 on 'Using correct PPE' and in May 2018 on 'Work Safely at Heights'. Further internal training was provided to Aaron Sale, Pushpinder Singh, Karen Bruno and Hardeep Singh on safely conducting maintenance work on the Peddinghaus plasma machine.

Supply of OHLE structures, Melbourne

*See you all in September!
Michelle, Mud and all the
Macfab team*

Food for Thought....

"I have the power to create change"
