

THERE IS STILL PLENTY OF 2020

Albion Park Rail Pass

Samual Safari -welcome to the team

Our new forlift all the way from Adelaide

Hello All,

Welcome to our 2nd newsletter for 2020. We hope you have all stayed healthy through these pandemic times. Since our last newsletter in March restrictions have lifted and life – to some degree – is slowly returning to what we all know it to be. The last few months have been trying for everyone concerned, both personal and business so we hope going forward things will only improve.

Some initiatives we have introduced to keep employees safe is staggered lunch/smoko breaks, 3 times daily cleaning smoko room, doors, etc & hand sanitizers throughout the building,

We are becoming busy again with more projects on the books and everyone now working fulltime hours. 1 new Apprentice commenced with us in June, Samuel Safari (see above). We wish him continued success with his trade over the next 4 years.

ACHIEVEMENTS & TRAINING

- We purchased a new 10 tonne forklift to keep up with current projects
- New staff member Josh Kingshott is training on both our drill-line and plasma machines

- Mitch Clarke, Dylan Wicks and Jack Peisley were trained for EWP (elevated work platform) works and working at heights training
- Manjit Singh was trained on the Daito machine.

CURRENT & ONGOING PROJECTS

- Albion park Rail by pass sign structures, barrier rails & safety screens
- Batemans Bay barrier rails & minor steel work
- McKanes bridge temporary & permanent steel work
- South Kensington to Footscray OLE structures
- Woodburn cycle rails
- Bulga bridge temporary steel work
- Cranbourne line OLE structures
- Bell to Moreland OLE structures
- Tottenham to Albion OLE structures
- Carrum Downs station privacy screens
- Demondrille creek bridge barrier rails
- Hawksburn walk way structures

Cheers until September

Michelle, Mud & all the Macfab team

FOOD FOR THOUGHT

"The hardest walk is walking alone, but it is also the walk that makes you the strongest".
