

## STILL KICKING GOALS IN 2020

Our new 2020 CNC Daito

Western Program Alliance

New smoko hut being lifted into place

Albion Park Rail Pass

Hello All,

Welcome to our 2nd newsletter for 2020. Well I think we would all agree how unsettling the last 3 months have been since our last newsletter and has continued to be, but grew worse. In our industry we have been blessed that the hit of Covid-19 hasn't had as much effect on us as some other businesses, that sadly are shut or have closed. At Macfab we continue to have systems in place on continual hygiene social distancing (where possible) etc. We are blessed to be in a region that has literally been Covid-free for months now. Let's hope it continues and by the end of the year we all look forward to some sense of normality.

Being on the NSW-Vic border has had its challenges throughout the last 2 months for many of our workers who need to cross the roadblock every morning with often challenging questions.

Since the bubble lifted and locals can visit their own region Vic-NSW it has made things more bearable. We want to thank our staff who go through this chaos daily. Let's hope our Premier opens the NSW border sooner rather than later.

### ACHIEVEMENTS & TRAINING

- In last 2 months, Mitch Clarke and Jack Peisley were trained for Working at Heights over 11m
- Alex Phan is due to attend a forklift course in October along with several employees doing their First Aid training
- We purchased a 2020 CNC Daito digital bandsaw which will reduce time and increase productivity

### CURRENT & ONGOING PROJECTS

- Albion Park Rail bypass sign structures, barrier rails and safety screens
- McKane's bridge, temporary and permanent steel
- Batemans Bay barrier rails and minor steel work.
- Bell to Moreland OLE structures
- Tottenham to Albion OLE structures
- Werribee bridge - handrails and balustrades
- Jugiong Creek northbound - rails
- Echuca Bridge - bearing plates
- Pobes Creek - barrier rails
- Western Program Alliance - signal gantry
- Fabrication and install for Macfab's own smoko hut covering

**Cheers until December,  
Michelle, Mud & all the Macfab team**

### FOOD FOR THOUGHT

"All birds find shelter during the rain. But the eagle avoids rain by flying above the clouds. Problems are common, but attitude makes the difference"
